

Amendments to the Specification:

Replace the paragraph beginning on page 26, line 28 with the following paragraph:

As those skilled in the art will recognize, the invention described herein can be modified to accommodate and/or comply with any one or more of the above-described technologies and standards. In addition, variations, modifications, and other implementations of what is described herein can occur to those of ordinary skill in the art without departing from the spirit and the scope of the invention as claimed. Further, virtually any aspect of the embodiments of the invention described herein can be implemented using software, hardware, or in a combination of hardware and software. In addition, at least some embodiments of the invention described herein can be implemented using one or more computer-readable and/or computer-usable program modules, which modules can be embodied in tangible media (e.g., disks, CD-ROMs, DVDs (digital video disks), and hard drives) ~~and/or in signals propagated on a carrier wave (e.g., such as by downloading with information downloaded~~ from a computer network such as the Internet[D]].
